

Preparing for your remedy choice – update two (20 December 2024)

Police Pensioner Update – December 2024

In readiness for the delivery of remedy choice letters (Remediable Service Statements or RSS), we have added a new section to the Remedy Hub: I've received my RSS – help and support.

You'll find resources designed to provide guidance with understanding your choice letter including a member RSS guide – videos and frequently asked questions will be coming soon.

[Member RSS guide](#)

From January, RSS will be issued in batches until all retired members who are eligible have received an RSS. More information about this will be made available in our next update.

If you missed our November update – please take a look as it provides helpful explanatory information about what remedy is, who is eligible and an overview of a remedy choice letter.

Look out for our next update.
