

Preparing for your remedy choice – update three (30 January 2025)

Police Pensioner Update – January 2025

This month we launch a video resource to help you understand your choice letter (Remediable Service Statement). This is the first of two video resources which look at the choice letter in detail.

This video looks at your remedy choice and the information available in the Remediable Service Statement to help you make a decision.

Good progress is being made with issuing RSS. We have been finalising our processes around tax handling further to advice from HMRC and HMT and plan to re-commence issuing RSS in February.

We will be in contact with you directly as we work through delivery of RSS.

We are not able to provide information on the scheduling of RSS or when specific RSS will be sent out.

Look out for our next update.
